MATHCOUNTS® is the only nationwide enrichment, club and competition program specifically for middle school math students. With the generous support of all MATHCOUNTS® sponsors and volunteers, and leadership of the National Society of Professional Engineers at the local and state levels, MATHCOUNTS® is providing today’s students with the foundation for success in science, technology, engineering and mathematics (STEM) careers.

MATHCOUNTS®, a 501(c)3 tax-exempt organization, is a national enrichment, club and competition program that promotes middle school mathematics achievement through grassroots involvement in every U.S. state and territory. It heightens student interest in mathematics by making math achievement challenging and exciting. It introduces students to STEM careers through contacts with engineers and other professionals who serve as volunteers. More than 17,000 volunteers participate annually to coach students and conduct competitions.

The Florida Engineering Society (FES) is proud to have sponsored Florida MATHCOUNTS® since its origination in 1983. In Florida, participating middle schools compete individually or as part of a team in one of nineteen FES Chapter MATHCOUNTS® Competitions held in February. FES Chapters in turn send their winning teams and individuals to the state competition held in Daytona Beach, FL in March.

FES coordinates and hosts the State Competition where Mathletes® compete to advance to the National MATHCOUNTS® Competition. At the State Competition, FES awards top teams and individuals with trophies, scholarships, and cash. The top four individuals go on to represent Florida, all expenses paid, at the National Competition. This winning state team also participates in two FES-sponsored retreats in preparation for the national event. All of this would not be possible without the support of the generous FES sponsors and volunteers.

Please refer to the Sponsorship Levels to determine what best fits your company (see reverse side). FES also accepts in-kind donations as part of the Florida MATHCOUNTS® Competition. Examples of approved in-kind are: MATHLETE (student) give-a-ways, gift cards for coach and MATHLETE drawings, etc. Please use the Sponsor Letter of Commitment for donations. Additional items may be approved. For more information, please contact Stefanie Dedmon, State MATHCOUNTS® Coordinator, via phone, 850-224-7121 or email, mathcounts@fleng.org.
